Feedback is welcome. Please write us at ces.qwi.feedback@census.gov.

1. Purpose

The public-use data from the Longitudinal Employer-Household Dynamics (LEHD) Program are available for download with this data schema. The following data products are described:

- Quarterly Workforce Indicators (QWI)
- Job-to-Job Flows (J2J)
- Post-Secondary Employment Outcomes (PSEO)

These data are available through the LEHD website's Data page at <https://lehd.ces.census.gov/data/> (QWI, J2J, PSEO) and through the LED Extraction Tool at <https://ledextract.ces.census.gov/> (QWI, J2J).

This document describes the data schema for LEHD files. LEHD-provided SHP files are separately described in [lehd_shapefiles.pdf](#). For each variable, a set of allowable values is defined. Definitions are provided as CSV files, with header variable definitions. Changes are listed in [lehd_changelog.pdf](#).

2. File naming

The naming conventions of the data files is documented in [lehd_csv_naming.pdf](#).

3. Extends

This version reimplements some features from V4.0. Many files compliant with LEHD or QWI Schema v4.0 will also be compliant with this schema, but compatibility is not guaranteed.

4. Basic Schema

Each data file is structured as a CSV file. The first columns contain [\[identifiers\]](#), subsequent columns contain [\[indicators\]](#), followed by [status flags](#). In some cases, visually formatted Excel (XLSX) files are also available, containing the same information together with header lines on each sheet.

4.1. Generic Structure

| Column name |
|-------------------|
| [Identifier1] |
| [Identifier2] |
| [Identifier3] |
| [...] |
| [Indicator 1] |
| [Indicator 2] |
| [Indicator 3] |
| [...] |
| [Status Flag 1] |
| [Status Flag 2] |

| Column name |
|-------------------|
| [Status Flag 3] |
| [...] |

Note: A full list of indicators for each type of file are shown below in the [Indicators](#) section. While all indicators are included in the CSV files, only the requested indicators will be included in data outputs from the LED Extraction Tool.

4.2. Identifiers

Records, unless otherwise noted, are parts of time-series data. Unique record identifiers are noted below, by file type. Identifiers without the year and quarter component can be considered a series identifier.

4.2.1. Mapping for Identifiers

([lehd_mapping_identifiers.csv](#))

Each of the released files has a set of variables uniquely identifying records ('Identifiers'). The table below relates the set of identifier specifications to the released files. The actual CSV files containing the identifiers for each set are listed after this table. Each identifier can take on a specified list of values, documented in the section on [Categorical Variables](#).

| identifiers | QWI | NQW I | J2J | J2JR | J2JOD | PSEO E | PSEO F | LODE S |
|------------------------|-----|----------|-----|------|-------|-----------|-----------|-----------|
| lehd_identifiers_qwi | 1 | 1 | | | | | | |
| lehd_identifiers_j2j | | | 1 | 1 | | | | |
| lehd_identifiers_j2jod | | | | | 1 | | | |
| lehd_identifiers_pseo | | | | | | 1 | 1 | |

4.2.2. Identifiers for QWI

([lehd_identifiers_qwi.csv](#))

| Variable | Type | label |
|-------------|---------|--|
| periodicity | Char(1) | Periodicity of report |
| seasonadj | Char(1) | Seasonal Adjustment Indicator |
| geo_level | Char(1) | Group: Geographic level of aggregation |
| geography | Char(8) | Group: Geography code |
| ind_level | Char(1) | Group: Industry level of aggregation |
| industry | Char(5) | Group: Industry code |
| ownercode | Char(3) | Group: Ownership group code |
| sex | Char(1) | Group: Sex code |
| agegrp | Char(3) | Group: Age group code (WIA) |
| race | Char(2) | Group: race |
| ethnicity | Char(2) | Group: ethnicity |
| education | Char(2) | Group: education |
| firmage | Char(1) | Group: Firm Age group |
| firmsize | Char(1) | Group: Firm Size group |
| year | Num | Time: Year |
| quarter | Num | Time: Quarter |

4.2.3. Identifiers for J2J

([lehd_identifiers_j2j.csv](#))

| Variable | Type | label |
|-------------|---------|--|
| periodicity | Char(1) | Periodicity of report |
| seasonadj | Char(1) | Seasonal Adjustment Indicator |
| geo_level | Char(1) | Group: Geographic level of aggregation |
| geography | Char(8) | Group: Geography code |
| ind_level | Char(1) | Group: Industry level of aggregation |
| industry | Char(5) | Group: Industry code |
| ownercode | Char(3) | Group: Ownership group code |
| sex | Char(1) | Group: Sex code |
| agegrp | Char(3) | Group: Age group code (WIA) |
| race | Char(2) | Group: race |
| ethnicity | Char(2) | Group: ethnicity |
| education | Char(2) | Group: education |
| firmage | Char(1) | Group: Firm Age group |
| firmsize | Char(1) | Group: Firm Size group |
| year | Num | Time: Year |
| quarter | Num | Time: Quarter |
| agg_level | Num | Aggregation Level Indicator |

4.2.4. Identifiers for J2JOD

([lehd_identifiers_j2jod.csv](#))

| Variable | Type | label |
|----------------|---------|---|
| periodicity | Char(1) | Periodicity of report |
| seasonadj | Char(1) | Seasonal Adjustment Indicator |
| geo_level | Char(1) | Group: Geographic level of aggregation of destination job |
| geography | Char(8) | Group: Geography code of destination job |
| ind_level | Char(1) | Group: Industry level of aggregation of destination job |
| industry | Char(5) | Group: Industry code of destination job |
| ownercode | Char(3) | Group: Ownership group code of destination job |
| sex | Char(1) | Group: Sex code |
| agegrp | Char(3) | Group: Age group code (WIA) |
| race | Char(2) | Group: race |
| ethnicity | Char(2) | Group: ethnicity |
| education | Char(2) | Group: education |
| firmage | Char(1) | Group: Firm Age group |
| firmsize | Char(1) | Group: Firm Size group |
| year | Num | Time: Year |
| quarter | Num | Time: Quarter |
| agg_level | Num | Aggregation Level Indicator |
| geo_level_orig | Char(1) | Group: Geographic level of aggregation of origin job |
| geography_orig | Char(8) | Group: Geography code of origin job |
| ind_level_orig | Char(1) | Group: Industry level of aggregation of origin job |
| industry_orig | Char(5) | Group: Industry code of origin job |
| ownercode_orig | Char(3) | Group: Ownership group code of origin job |
| firmage_orig | Char(1) | Group: Firm Age group of origin job |
| firmsize_orig | Char(1) | Group: Firm Size group of origin job |

4.2.5. Identifiers for PSEO

([lehd_identifiers_pseo.csv](#))

| Variable | Type | label |
|-------------------|---------|---|
| agg_level_pseo | Numeric | Aggregation level |
| inst_level | Char(1) | Tabulation level of the institution |
| institution | Char(8) | Place of the institution |
| degree_level | Char(2) | Degree level code |
| cip_level | Char(1) | Degree field level of aggregation |
| cipcode | Char(7) | Degree field |
| grad_cohort | Char(4) | First year of graduation cohort (YYYY) - All Cohorts 0000 |
| grad_cohort_years | Numeric | Number of years in graduation cohort |
| geo_level | Char(1) | Group: Geographic level of employment |
| geography | Char(8) | Group: Geography code of employment |
| ind_level | Char(1) | Group: Industry level of employment |
| industry | Char(5) | Group: Industry code of employment |

4.3. Indicators

The following tables and associated mapping files list the indicators available on each file. The descriptor files themselves are structured as follows:

- The "Indicator Variable" is the short name of the variable on the CSV files, suitable for machine processing in a wide variety of statistical applications.
- When given, the "Alternate name" may appear in related documentation and articles.
- The "Status Flag" is used to indicate publication or data quality status (see [Status Flags](#)).
- The "Indicator Name" is a non-abbreviated version of the "Indicator Variable".
- The "Description" provides more verbose description of the variable.
- "Units" identify the type of variable according to a very simplified taxonomy (not formalized yet): counts, rates, monetary amounts.
- "Concept" classifies the variables into higher-level concepts. The taxonomy for these concepts has not been finalized yet, see [label_concept_draft.csv](#) for a draft version.
- The "Base" indicates the denominator used to compute the statistic, and may be '1'.

4.3.1. QWI Counts (QWI)

([variables_qwi.csv](#))

| Indicator Variable | Alternate Name | Status Flag | Indicator Name | Description | Units | Concept | Base |
|--------------------|----------------|-------------|----------------------------------|---|-------|------------|------|
| Emp | B | sEmp | Beginning-of-Quarter Employment | Estimate of the total number of jobs on the first day of the reference quarter | Count | Employment | 1 |
| EmpEnd | E | sEmpEnd | End-of-Quarter Employment | Estimate of the number of jobs on the last day of the quarter | Count | Employment | 1 |
| EmpS | F | sEmpS | Full-Quarter Employment (Stable) | Estimate of stable jobs - the number of jobs that are held on both the first and last day of the quarter with the same employer | Count | Employment | 1 |

| Indicator Variable | Alternate Name | Status Flag | Indicator Name | Description | Units | Concept | Base |
|---------------------------|-----------------------|--------------------|---|---|--------------|----------------|-------------|
| EmpTotal | M | sEmpTotal | Employment - Reference Quarter | Estimated count of people employed in a firm at any time during the quarter | Count | Employment | 1 |
| EmpSpv | Fpv | sEmpSpv | Full-Quarter Employment in the Previous Quarter | Estimate of stable jobs in the quarter before the reference quarter | Count | Employment | 1 |
| HirA | A | sHirA | Hires (All Accessions) | Estimated number of workers who started a new job in the specified quarter | Count | Hire | 1 |
| HirN | H | sHirN | New Hires | Estimated number of workers who started a new job excluding recall hires | Count | Hire | 1 |
| HirR | R | sHirR | Recall Hires | Estimated number of workers who returned to the same employer where they had worked within the previous year | Count | Hire | 1 |
| Sep | S | sSep | Separations (All) | Estimated number of workers whose job with a given employer ended in the specified quarter | Count | Separation | 1 |
| HirAEnd | CA | sHirAEnd | End-of-Quarter Hires | Estimated number of workers who started a new job in the specified quarter, which continued into next quarter | Count | Hire | 1 |

| Indicator or Variable | Alternate Name | Status Flag | Indicator Name | Description | Units | Concept | Base |
|------------------------------|-----------------------|--------------------|--|---|--------------|----------------|------------------|
| SepBeg | CS | sSepBeg | Beginning-of-Quarter Separations | Estimated number of workers whose job in the previous quarter continued and ended in the given quarter | Count | Separation | 1 |
| HirAEndRepl | EI | sHirAEndRepl | Replacement Hires | Hires into continuous quarter employment in excess of job creation | Count | Hire | 1 |
| HirAEndR | CAR | sHirAEndR | End-of-Quarter Hiring Rate | Hires as a percent of average employment | Rate | Hire | (Emp + EmpEnd)/2 |
| SepBegR | CSR | sSepBegR | Beginning-of-Quarter Separation Rate | Separations as a percent of average employment | Rate | Separation | (Emp + EmpEnd)/2 |
| HirAEndReplR | EIR | sHirAEndReplR | Replacement Hiring Rate | Replacement hires as a percent of the average of beginning- and end-of-quarter employment | Rate | Hire | (Emp + EmpEnd)/2 |
| HirAS | FA | sHirAS | Hires (All Hires into Full-Quarter Employment) | Estimated number of workers that started a job that lasted at least one full quarter with a given employer | Count | Hire | 1 |
| HirNS | FH | sHirNS | New Hires (New Hires into Full-Quarter Employment) | Estimated number of workers who started a job that they had not held within the past year and the job turned into a job that lasted at least a full quarter with a given employer | Count | Hire | 1 |

| Indicator or Variable | Alternate Name | Status Flag | Indicator Name | Description | Units | Concept | Base |
|------------------------------|-----------------------|--------------------|--|--|--------------|----------------|-------------|
| SepS | FS | sSepS | Separations (Flows out of Full-Quarter Employment) | Estimated number of workers who had a job for at least a full quarter and then the job ended | Count | Separation | 1 |
| SepSnx | FSnx | sSepSnx | Separations in the Next Quarter (Flows out of Full-Quarter Employment) | Estimated number of workers in the next quarter who had a job for at least a full quarter and then the job ended | Count | Separation | 1 |
| TurnOvrS | FT | sTurnOvrS | Turnover (Stable) | The rate at which stable jobs begin and end | Rate | Turnover | 2*EmpS |
| FrmJbGn | JC | sFrmJbGn | Firm Job Gains (Job Creation) | Estimated number of jobs gained at firms throughout the quarter | Count | Job Flows | 1 |
| FrmJbLoss | JD | sFrmJbLoss | Firm Job Loss (Job Destruction) | Estimated number of jobs lost at firms throughout the quarter | Count | Job Flows | 1 |
| FrmJbC | JF | sFrmJbC | Firm Job Change (Net Change) | Difference between firm job gain and firm job loss | Count | Job Flows | 1 |
| FrmJbGnS | FJC | sFrmJbGnS | Firm Job Gains (Stable) | Estimated number of full-quarter jobs gained at firms | Count | Job Flows | 1 |
| FrmJbLossS | FJD | sFrmJbLossS | Firm Job Loss (Stable) | Estimated number of full-quarter jobs lost at firms | Count | Job Flows | 1 |
| FrmJbCS | FJF | sFrmJbCS | Firm Job Change (Stable; Net Change) | Net growth in jobs that last a full quarter | Count | Job Flows | 1 |
| EarnS | ZW3 | sEarnS | Average Monthly Earnings (Full-Quarter Employment) | Average monthly earnings of employees with stable jobs | Dollars | Earnings | EmpS |

| Indicator Variable | Alternate Name | Status Flag | Indicator Name | Description | Units | Concept | Base |
|---------------------------|-----------------------|--------------------|---|--|--------------|----------------|-------------|
| EarnBeg | ZW2B | sEarnBeg | Average Monthly Earnings (Beginning-of-Quarter Employment) | Average monthly earnings of employees who worked on the first day of the reference quarter | Dollars | Earnings | Emp |
| EarnHirAS | ZWFA | sEarnHirAS | Average Monthly Earnings (All Hires into Full-Quarter Employment) | Average monthly earnings for workers who started a job that turned into a job lasting a full quarter | Dollars | Earnings | HirAS |
| EarnHirNS | ZWFH | sEarnHirNS | Average Monthly Earnings (New Hires into Full-Quarter Employment) | Average monthly earnings of newly stable employees | Dollars | Earnings | HirNS |
| EarnSepS | ZWFS | sEarnSepS | Average Monthly Earnings (Flows out of Full-Quarter Employment) | Average monthly earnings of separations from full-quarter status at an establishment | Dollars | Earnings | SepSnx |
| Payroll | W1 | sPayroll | Total Quarterly Payroll | Total quarterly payroll for all jobs | Dollars | Earnings | 1 |

4.3.2. QWI Rates (QWIR)

Rates are computed from published data, and are provided as a convenience.

([variables_qwir.csv](#))

| Indicator or Variable | Alternate Name | Status Flag | Indicator Name | Description | Units | Concept | Base |
|-----------------------|----------------|---------------|--|--|-------|------------|-----------------------------------|
| HirAR | AR | sHirAR | Hiring Rate (All Accessions) | All accessions as a percent of average employment | Rate | Hire | $(\text{Emp} + \text{EmpEnd})/2$ |
| HirNR | HR | sHirNR | New Hiring Rate | New hires as a percent of average employment | Rate | Hire | $(\text{Emp} + \text{EmpEnd})/2$ |
| HirRR | RR | sHirRR | Recall Rate | Recall hires as a percent of average employment | Rate | Hire | $(\text{Emp} + \text{EmpEnd})/2$ |
| SepR | SR | sSepR | Separation Rate (All Separations) | All separations as a percent of average employment | Rate | Separation | $(\text{Emp} + \text{EmpEnd})/2$ |
| HirAEndR | CAR | sHirAEndR | End-of-Quarter Hiring Rate | Hires as a percent of average employment | Rate | Hire | $(\text{Emp} + \text{EmpEnd})/2$ |
| SepBeginR | CSR | sSepBeginR | Beginning-of-Quarter Separation Rate | Separations as a percent of average employment | Rate | Separation | $(\text{Emp} + \text{EmpEnd})/2$ |
| HirAEndReplR | EIR | sHirAEndReplR | Replacement Hiring Rate | Replacement hires as a percent of average employment | Rate | Hire | $(\text{Emp} + \text{EmpEnd})/2$ |
| HirASR | FAR | sHirASR | Hiring Rate (Flows into Full-Quarter Employment) | Flows into stable employment as a percent of average stable employment | Rate | Hire | $(\text{EmpSpv} + \text{EmpS})/2$ |
| HirNSR | FHR | sHirNSR | New Hiring Rate (New Hires to Full-Quarter Status) | New hires into stable employment as a percent of average stable employment | Rate | Hire | $(\text{EmpSpv} + \text{EmpS})/2$ |

| Indicator or Variable | Alternate Name | Status Flag | Indicator Name | Description | Units | Concept | Base |
|------------------------------|-----------------------|--------------------|---|--|--------------|----------------|------------------------|
| SepSR | FSR | sSepSR | Separation Rate (Flows out of Full-Quarter Employment) | Flows out of stable employment as a percent of average stable employment | Rate | Separation | $(EmpS_{pv} + EmpS)/2$ |
| SepSnxR | FSnxR | sSepSnxR | Separation Rate in the Next Quarter (Flow out of Full-Quarter Employment) | Flow rate out of stable employment in the next quarter | Rate | Separation | $(EmpS_{pv} + EmpS)/2$ |
| TurnOverSR | FTR | sTurnOverSR | Turnover Rate (Stable) | The rate at which stable jobs begin and end | Rate | Turnover | $2 * EmpS$ |
| FrmJobGnR | JCR | sFrmJobGnR | Firm Job Gain Rate (Job Creation Rate) | Estimated number of jobs gained at firms throughout the quarter as a percent of average employment | Rate | Job Flows | $(Emp + EmpEnd)/2$ |
| FrmJobLossR | JDR | sFrmJobLossR | Firm Job Loss Rate (Job Destruction Rate) | Estimated number of jobs lost at firms throughout the quarter as a percent of average employment | Rate | Job Flows | $(Emp + EmpEnd)/2$ |
| FrmJobChangeR | JFR | sFrmJobChangeR | Firm Job Change Rate (Net Change Rate) | Difference between firm job gain and firm job loss as a percent of average employment | Rate | Job Flows | $(Emp + EmpEnd)/2$ |
| FrmJobGnSR | FJCR | sFrmJobGnSR | Firm Job Gain Rate (Stable) | Estimated number of full-quarter jobs gained at firms as a percent of average stable employment | Rate | Job Flows | $(EmpS_{pv} + EmpS)/2$ |
| FrmJobLossSR | FJDR | sFrmJobLossSR | Firm Job Loss Rate (Stable) | Estimated number of full-quarter jobs lost at firms as a percent of average stable employment | Rate | Job Flows | $(EmpS_{pv} + EmpS)/2$ |

| Indicator or Variable | Alternate Name | Status Flag | Indicator Name | Description | Units | Concept | Base |
|--------------------------------------|---------------------------|------------------------|--|---|--------------|----------------|--|
| FrmJbCSR | FJFR | sFrmJbCSR | Firm Job Change Rate (Stable; Net Change Rate) | Net growth in jobs that last a full quarter as a percent of average stable employment | Rate | Job Flows | $(\text{EmpS}_{pv} + \text{EmpS}) / 2$ |

4.3.3. J2J Counts (J2J)

([variables_j2j.csv](#))

| Indicator Variable | Alternate Name | Status Flag | Indicator Name | Description | Units | Concept | Base |
|--------------------|-----------------|-------------|--|---|-------|------------|------|
| MHire | all_dom a2 | sMHire | Hires | Hires into a worker's main job | Count | Hire | 1 |
| MSep | all_dom s2 | sMSep | Separations | Separations from a worker's main job | Count | Separation | 1 |
| MJobStart | first_dom me | sMJobStart | Main Job Starts | New main jobs due to hires and instances when a previously existing secondary job becomes the main source of earnings | Count | Hire | 1 |
| MJobEnd | last_dom mb | sMJobEnd | Main Job Ends | End of main jobs due to separations and instances when another job becomes the main source of earnings | Count | Separation | 1 |
| EEHire | ee_dom a2 | sEEHire | Job-to-Job Hires (Continuous Employment) | Hires following a separation with no observed nonemployment spell | Count | Hire | 1 |
| EESep | ee_dom s2 | sEESep | Job-to-Job Separations (Continuous Employment) | Separations followed by a hire with no observed nonemployment spell | Count | Separation | 1 |
| AQHire | aq_dom a2 | sAQHire | Job-to-Job Hires (Brief Nonemployment) | Hires following a separation with a short nonemployment spell | Count | Hire | 1 |
| AQSep | aq_dom s2 | sAQSep | Job-to-Job Separations (Brief Nonemployment) | Separations followed by a hire with a short nonemployment spell | Count | Separation | 1 |

| Indicator Variable | Alternate Name | Status Flag | Indicator Name | Description | Units | Concept | Base |
|---------------------------|-----------------------|--------------------|---|---|--------------|----------------|-------------|
| J2JHire | j2j_dom a2 | sJ2JHire | Job-to-Job Hires | Hires following a separation (short or no observed nonemployment spell) | Count | Hire | 1 |
| J2JSep | j2j_dom s2 | sJ2JSep | Job-to-Job Separations | Separations followed by a hire (short or no observed nonemployment spell) | Count | Separation | 1 |
| NEHire | ne_dom a2 | sNEHire | Hires from Nonemployment | Hires following any spell of nonemployment | Count | Hire | 1 |
| ENSep | en_dom s2 | sENSep | Separations to Nonemployment | Separations into any spell of nonemployment | Count | Separation | 1 |
| NEPersist | ne2_dom a2 | sNEPersist | Hires from Persistent Nonemployment | Hires following a spell of persistent nonemployment | Count | Hire | 1 |
| ENPersist | en2_dom ms2 | sENPersist | Separations to Persistent Nonemployment | Separations into a spell of persistent nonemployment | Count | Separation | 1 |
| NEFull Q | ne2p_dom a2 | sNEFull Q | Hires from Full-Quarter Nonemployment | Hires following a spell of full-quarter nonemployment (does not include intermittently employed) | Count | Hire | 1 |
| ENFull Q | en2p_doms 2 | sENFull Q | Separations to Full-Quarter Nonemployment | Separations into a spell of full-quarter nonemployment (does not include intermittently employed) | Count | Separation | 1 |
| MainB | domB | sMainB | Employment (Beginning of Quarter) | Main jobs held on the first day of the quarter | Count | Employment | 1 |

| Indicator or Variable | Alternate Name | Status Flag | Indicator Name | Description | Units | Concept | Base |
|------------------------------|-----------------------|--------------------|---|---|--------------|----------------|-------------|
| MainE | domE | sMainE | Employment (End of Quarter) | Main jobs held on the last day of the quarter | Count | Employment | 1 |
| EESepS | fee_doms2 | sEESepS | Stable Job-to-Job Separations (Continuous Employment) | Separations from stable employment followed by a hire to stable employment with no observed nonemployment spell | Count | Separation | 1 |
| EEHireS | fee_doma2 | sEEHireS | Stable Job-to-Job Hires (Continuous Employment) | Hires to stable employment following a separation from stable employment with no observed nonemployment spell | Count | Hire | 1 |
| AQSepS | faq_doms2 | sAQSepS | Stable Job-to-Job Separations (Brief Nonemployment) | Separations from stable employment followed by a hire to stable employment with a short nonemployment spell | Count | Separation | 1 |
| AQHireS | faq_doma2 | sAQHireS | Stable Job-to-Job Hires (Brief Nonemployment) | Hires to stable employment following a separation from stable employment with a short nonemployment spell | Count | Hire | 1 |
| NEPersistS | fne2_doma2 | sNEPersistS | Stable Hires from Persistent Nonemployment | Hires to stable employment following a spell of persistent nonemployment | Count | Hire | 1 |

| Indicator or Variable | Alternate Name | Status Flag | Indicator Name | Description | Units | Concept | Base |
|------------------------------|-----------------------|----------------------|--|---|--------------|----------------|-------------|
| ENPersistS | fen2_doms2 | sENPersistS | Stable Separations to Persistent Nonemployment | Separations from stable employment into a spell of persistent nonemployment | Count | Separation | 1 |
| JobStayerS | f4domb_e | sJobStayerS | Stable Job Stayer | Stable main jobs that did not change during the reference quarter | Count | Employment | 1 |
| MainBS | fdomb | sMainBS | Stable Employment (Beginning of Quarter) | Stable main jobs held on the first day of the quarter | Count | Employment | 1 |
| MainES | fdome | sMainES | Stable Employment (End of Quarter) | Stable main jobs held on the last day of the quarter | Count | Employment | 1 |
| NEHireSEarn_Dest | fne2_doma2_kfqearn | sNEHireSEarn_Dest | Average Earnings following Stable Hires from Persistent Nonemployment | Average quarterly earnings following hires to stable employment from a spell of persistent nonemployment | Dollars | Earnings | NE PersistS |
| ENSEpSEarn_Orig | fen2_doms2_jfqearn | sENSEpSEarn_Orig | Average Earnings prior to Stable Separations to Persistent Nonemployment | Average quarterly earnings prior to separations from stable employment into a spell of persistent nonemployment | Dollars | Earnings | EN PersistS |

4.3.6. PSEO Earnings (PSEOE)

([variables_pseoe.csv](#))

| Indicator Variable | Status Flag | Description | Units | Concept |
|--------------------|------------------------|--|---------|------------|
| y1_p25_earnings | status_y1_earnings | Earnings 25th Percentile in Year 1 (2022 Dollars) | Dollars | Earnings |
| y1_p50_earnings | status_y1_earnings | Earnings 50th Percentile in Year 1 (2022 Dollars) | Dollars | Earnings |
| y1_p75_earnings | status_y1_earnings | Earnings 75th Percentile in Year 1 (2022 Dollars) | Dollars | Earnings |
| y1_grads_earn | status_y1_grads_earn | Count of Employed Graduates in Year 1 | Count | Employment |
| y5_p25_earnings | status_y5_earnings | Earnings 25th Percentile in Year 5 (2022 Dollars) | Dollars | Earnings |
| y5_p50_earnings | status_y5_earnings | Earnings 50th Percentile in Year 5 (2022 Dollars) | Dollars | Earnings |
| y5_p75_earnings | status_y5_earnings | Earnings 75th Percentile in Year 5 (2022 Dollars) | Dollars | Earnings |
| y5_grads_earn | status_y5_grads_earn | Count of Employed Graduates in Year 5 | Count | Employment |
| y10_p25_earnings | status_y10_earnings | Earnings 25th Percentile in Year 10 (2022 Dollars) | Dollars | Earnings |
| y10_p50_earnings | status_y10_earnings | Earnings 50th Percentile in Year 10 (2022 Dollars) | Dollars | Earnings |
| y10_p75_earnings | status_y10_earnings | Earnings 75th Percentile in Year 10 (2022 Dollars) | Dollars | Earnings |
| y10_grads_earn | status_y10_grads_earn | Count of Employed Graduates in Year 10 | Count | Employment |
| y1_ipeds_count | status_y1_ipeds_count | Count of IPEDS Reported Graduates of Programs Included in Year 1 Earnings | Count | Graduates |
| y5_ipeds_count | status_y5_ipeds_count | Count of IPEDS Reported Graduates of Programs Included in Year 5 Earnings | Count | Graduates |
| y10_ipeds_count | status_y10_ipeds_count | Count of IPEDS Reported Graduates of Programs Included in Year 10 Earnings | Count | Graduates |

4.3.7. PSEO Flows (PSEOF)

([variables_pseof.csv](#))

| Indicator Variable | Status Flag | Description | Units | Concept |
|-----------------------|------------------------------|---|-------|------------|
| y1_grads_emp | status_y1_grads_emp | Count of Employed Graduates in Year 1 | Count | Employment |
| y1_grads_emp_instate | status_y1_grads_emp_instate | Count of Graduates Employed in Same State as Educational Institution in Year 1 | Count | Employment |
| y5_grads_emp | status_y5_grads_emp | Count of Employed Graduates in Year 5 | Count | Employment |
| y5_grads_emp_instate | status_y5_grads_emp_instate | Count of Graduates Employed in Same State as Educational Institution in Year 5 | Count | Employment |
| y10_grads_emp | status_y10_grads_emp | Count of Employed Graduates in Year 10 | Count | Employment |
| y10_grads_emp_instate | status_y10_grads_emp_instate | Count of Graduates Employed in Same State as Educational Institution in Year 10 | Count | Employment |
| y1_grads_nme | status_y1_grads_nme | Count of Graduates Jobless or Marginally Employed in Year 1 | Count | Employment |
| y5_grads_nme | status_y5_grads_nme | Count of Graduates Jobless or Marginally Employed in Year 5 | Count | Employment |
| y10_grads_nme | status_y10_grads_nme | Count of Graduates Jobless or Marginally Employed in Year 10 | Count | Employment |

4.4. Variability Measures

The following tables and associated mapping files list the variability measures available on each file. The "Variability Measure" is the short name of the variable on the CSV files, suitable for machine processing in a wide variety of statistical applications. When given, the "Alternate Name" may appear in related documentation and articles. The "Variable Name" is a more verbose description of the variability measure.

Six variability measures are published:

- Total variability, prefixed by vt_
- Standard error, prefixed by st_, and computed as the square root of Total Variability
- Between-implicate variability, prefixed by vb_
- Average within-implicate variability, prefixed by vw_
- Degrees of freedom, prefixed by df_
- Missingness ratio, prefixed by mr_

A missing variability measure indicates a structural zero in the corresponding indicator. This is currently not associated with a flag.

4.4.1. Generic Structure

| Column name |
|---|
| [Identifier1] |
| [Identifier2] |
| [Identifier3] |
| [...] |
| [Standard error for Indicator 1] |
| [Standard error for Indicator 2] |
| [Standard error for Indicator 3] |
| [...] |
| [Total variation for Indicator 1] |
| [Total variation for Indicator 2] |
| [Total variation for Indicator 3] |
| [...] |
| [Between-implicate variability for Indicator 1] |
| [Between-implicate variability for Indicator 2] |
| [Between-implicate variability for Indicator 3] |
| [...] |

| Column name |
|--|
| [Average within-implicate variability for Indicator 1] |
| [Average within-implicate variability for Indicator 2] |
| [Average within-implicate variability for Indicator 3] |
| [...] |
| [Degrees of freedom for Indicator 1] |
| [Degrees of freedom for Indicator 2] |
| [Degrees of freedom for Indicator 3] |
| [...] |
| [Missingness ratio for Indicator 1] |
| [Missingness ratio for Indicator 2] |
| [Missingness ratio for Indicator 3] |
| [...] |

Note: A full list of indicators for each type of file are shown in the [Indicators](#) section. In the tables below, only a sample of variability measures are printed, but the complete list is available in the linked CSV schema files.

4.4.2. Variability Measures for QWI (QWIV) - National-level Only

([variables_qwiv.csv](#))

| Variability measure | Variable name | Units |
|---------------------|---|-------|
| st_Emp | Standard error of Beginning-of-Quarter Employment | Count |
| st_EmpEnd | Standard error of End-of-Quarter Employment | Count |
| st_EmpS | Standard error of Full-Quarter Employment (Stable) | Count |
| ... | | |
| vt_Emp | Total variation of Beginning-of-Quarter Employment | Count |
| vt_EmpEnd | Total variation of End-of-Quarter Employment | Count |
| vt_EmpS | Total variation of Full-Quarter Employment (Stable) | Count |
| ... | | |
| vb_Emp | Between-implicate variability for Beginning-of-Quarter Employment | Count |
| vb_EmpEnd | Between-implicate variability for End-of-Quarter Employment | Count |
| vb_EmpS | Between-implicate variability for Full-Quarter Employment (Stable) | Count |
| ... | | |
| vm_Emp | Average within-implicate variability for Beginning-of-Quarter Employment | Count |
| vm_EmpEnd | Average within-implicate variability for End-of-Quarter Employment | Count |
| vm_EmpS | Average within-implicate variability for Full-Quarter Employment (Stable) | Count |
| ... | | |
| df_Emp | Degrees of freedom for VT of Beginning-of-Quarter Employment | Count |
| df_EmpEnd | Degrees of freedom for VT of End-of-Quarter Employment | Count |
| df_EmpS | Degrees of freedom for VT of Full-Quarter Employment (Stable) | Count |
| ... | | |
| mr_HirA | Missingness ratio for Hires (All Accessions) | Count |
| mr_HirN | Missingness ratio for New Hires | Count |
| mr_HirR | Missingness ratio for Recall Hires | Count |

4.4.3. Variability Measures for QWI Rates (QWIRV) - National-level Only

([variables_qwirv.csv](#))

| Variability measure | Variable name | Units |
|---------------------|---|-------|
| st_HirAR | Standard error of Hiring Rate (All Accessions) | Rate |
| st_HirNR | Standard error of New Hiring Rate | Rate |
| st_HirRR | Standard error of Recall Rate | Rate |
| ... | | |
| vt_HirAR | Total variation of Hiring Rate (All Accessions) | Rate |
| vt_HirNR | Total variation of New Hiring Rate | Rate |
| vt_HirRR | Total variation of Recall Rate | Rate |
| ... | | |
| vb_HirAR | Between-implicate variability for Hiring Rate (All Accessions) | Rate |
| vb_HirNR | Between-implicate variability for New Hiring Rate | Rate |
| vb_HirRR | Between-implicate variability for Recall Rate | Rate |
| ... | | |
| vm_HirAR | Average within-implicate variability for Hiring Rate (All Accessions) | Rate |
| vm_HirNR | Average within-implicate variability for New Hiring Rate | Rate |
| vm_HirRR | Average within-implicate variability for Recall Rate | Rate |
| ... | | |
| df_HirAR | Degrees of freedom for VT of Hiring Rate (All Accessions) | Rate |
| df_HirNR | Degrees of freedom for VT of New Hiring Rate | Rate |
| df_HirRR | Degrees of freedom for VT of Recall Rate | Rate |
| ... | | |
| mr_HirAR | Missingness ratio for Hiring Rate (All Accessions) | Rate |
| mr_HirNR | Missingness ratio for New Hiring Rate | Rate |
| mr_HirRR | Missingness ratio for Recall Rate | Rate |
| ... | | |

5. Categorical Variables

Categorical variable descriptions are displayed above each table, with the variable name shown in parentheses. Unless otherwise stated, every possible value/label combination for each categorical variable is listed. Please note that not all values will be available in every table.

5.1. Agegrp

([label_agegrp.csv](#))

| agegrp | label |
|--------|------------------|
| A00 | All Ages (14-99) |
| A01 | 14-18 |
| A02 | 19-21 |
| A03 | 22-24 |
| A04 | 25-34 |
| A05 | 35-44 |
| A06 | 45-54 |
| A07 | 55-64 |
| A08 | 65-99 |

5.2. Education

([label_education.csv](#))

| education | label |
|-----------|---|
| E0 | All Education Categories |
| E1 | Less than high school |
| E2 | High school or equivalent, no college |
| E3 | Some college or Associate degree |
| E4 | Bachelor's degree or advanced degree |
| E5 | Educational attainment not available (workers aged 24 or younger) |

5.3. Ethnicity

([label_ethnicity.csv](#))

| ethnicity | label |
|-----------|-----------------|
| A0 | All Ethnicities |

| ethnicity | label |
|-----------|------------------------|
| A1 | Not Hispanic or Latino |
| A2 | Hispanic or Latino |

5.4. Firmage

([label_firmage.csv](#))

| firmage | label |
|---------|--|
| 0 | All Firm Ages |
| 1 | 0-1 Years |
| 2 | 2-3 Years |
| 3 | 4-5 Years |
| 4 | 6-10 Years |
| 5 | 11+ Years |
| N | Firm Age Not Available For Public-Sector Firms |

5.5. Firmsize

([label_firmsize.csv](#))

| firmsize | label |
|----------|---|
| 0 | All Firm Sizes |
| 1 | 0-19 Employees |
| 2 | 20-49 Employees |
| 3 | 50-249 Employees |
| 4 | 250-499 Employees |
| 5 | 500+ Employees |
| N | Firm Size Not Available For Public-Sector Firms |

5.6. Ownercode

([label_ownercode.csv](#))

| ownercode | label |
|-----------|---|
| A00 | State and local government plus private ownership |
| A01 | Federal government |
| A05 | All Private |

5.7. Periodicity

([label_periodicity.csv](#))

| periodicity | label |
|-------------|----------------|
| A | Annual data |
| Q | Quarterly data |

5.8. Quarter

([label_quarter.csv](#))

| quarter | label |
|---------|--|
| 1 | 1st Quarter of the Year (January-March) |
| 2 | 2nd Quarter of the Year (April-June) |
| 3 | 3rd Quarter of the Year (July-September) |
| 4 | 4th Quarter of the Year (October-December) |

5.9. Race

([label_race.csv](#))

| race | label |
|------|---|
| A0 | All Races |
| A1 | White Alone |
| A2 | Black or African American Alone |
| A3 | American Indian or Alaska Native Alone |
| A4 | Asian Alone |
| A5 | Native Hawaiian or Other Pacific Islander Alone |
| A6 | Some Other Race Alone (Not Used) |

| race | label |
|------|-------------------------|
| A7 | Two or More Race Groups |

5.10. Seasonadj

([label_seasonadj.csv](#))

| seasonadj | label |
|-----------|-------------------------|
| S | Seasonally adjusted |
| U | Not seasonally adjusted |

5.11. Sex

([label_sex.csv](#))

| sex | label |
|-----|-----------|
| 0 | All Sexes |
| 1 | Male |
| 2 | Female |

5.12. Industry

5.12.1. Industry levels

([label_ind_level.csv](#))

| ind_level | label |
|-----------|-----------------------|
| A | All Industries |
| S | NAICS Sectors |
| 3 | NAICS Subsectors |
| 4 | NAICS Industry Groups |

5.12.2. Industry

([label_industry.csv](#))

Only a small subset of available values shown. The 2022 NAICS (North American Industry Classification System) is used for all years. For a full listing of all valid 2022 NAICS codes, see <https://www.census.gov/naics/>.

| industry | label | ind_level |
|----------|---|-----------|
| 00 | All NAICS Sectors | A |
| 000 | All NAICS Subsectors | A |
| 0000 | All NAICS Industry Groups | A |
| 11 | Agriculture, Forestry, Fishing and Hunting | S |
| 111 | Crop Production | 3 |
| 1111 | Oilseed and Grain Farming | 4 |
| 1112 | Vegetable and Melon Farming | 4 |
| ... | | |
| 2383 | Building Finishing Contractors | 4 |
| 2389 | Other Specialty Trade Contractors | 4 |
| 31-33 | Manufacturing | S |
| 311 | Food Manufacturing | 3 |
| 3111 | Animal Food Manufacturing | 4 |
| 3112 | Grain and Oilseed Milling | 4 |
| 3113 | Sugar and Confectionery Product Manufacturing | 4 |
| ... | | |

5.13. Educational Institution

5.13.1. Institution Levels

([label_inst_level.csv](#))

Educational institutions are tabulated individually in the current data release. Future releases may aggregate to institutions to higher levels, such as state or Census Division.

| inst_level | label |
|------------|--------------------------------|
| I | Institution |
| S | State of institution |
| D | Census division of institution |
| N | All institutions |

5.13.2. Institution

([label_institution.csv](#))

Institution identifiers are sourced from the [U.S. Department of Education, Federal Student Aid office](#). This list has been supplemented with records for regional groupings of institutions (may be used in future PSEO tabulations).

| institution | label | city | institution_state | inst_level | statefiles |
|-------------|---|-----------------|-------------------|------------|------------|
| 1 | Institutions in New England Division | | | D | |
| 2 | Institutions in Middle Atlantic Division | | | D | |
| 3 | Institutions in East North Central Division | | | D | |
| ... | | | | | |
| 00137000 | University of Colorado Boulder | Boulder | CO | I | 08 |
| 00309000 | Ohio State University | Columbus | OH | I | 39 |
| 00332900 | Pennsylvania State University (The) | University Park | PA | I | 42 |
| 00389500 | University of Wisconsin - Madison | Madison | WI | I | 55 |
| 00955800 | University of Texas | Austin | TX | I | 48 |
| 02458500 | University of Michigan | Ann Arbor | MI | I | 26 |
| ... | | | | | |

5.14. Degree Level

([label_degree_level.csv](#))

The degree levels are sourced from the [National Center for Education Statistics \(NCES\), Integrated Postsecondary Education Data System \(IPEDS\)](#).

| degree_level | label |
|--------------|----------------------------------|
| 00 | All Degree Levels |
| 01 | Certificate < 1 year |
| 02 | Certificate 1-2 years |
| 03 | Associates |
| 04 | Certificate 2-4 years |
| 05 | Baccalaureate |
| 06 | Post-Bacc Certificate |
| 07 | Masters |
| 08 | Post-Masters Certificate |
| 17 | Doctoral - Research/Scholarship |
| 18 | Doctoral - Professional Practice |

5.15. Classification of Instruction Programs (CIP)

5.15.1. CIP Levels

([label_cip_level.csv](#))

| cip_level | label |
|-----------|--------------------|
| A | All Degree Fields |
| 2 | 2-Digit CIP Family |
| 4 | 4-Digit CIP Codes |
| 6 | 6-Digit CIP Codes |

5.15.2. CIP Codes

([label_cipcode.csv](#))

CIP codes are sourced from the [National Center for Education Statistics \(NCES\), Integrated Postsecondary Education Data System \(IPEDS\)](#). Data are reported using 2020 CIP codes, for all years.

| cipcode | label | cip_level | CIPFamily | CIPDefinition |
|----------------|--|------------------|------------------|--|
| 00 | All Instructional Programs | A | 00 | All CIP Codes |
| 01 | Agricultural/Animal/Plant/Veterinary Science and Related Fields | 2 | 01 | Instructional programs that focus on agriculture, animal, plant, veterinary, and related sciences and that prepares individuals to apply specific knowledge, methods, and techniques to the management and performance of agricultural and veterinary operations. |
| 01.00 | Agriculture, General | 4 | 01 | Instructional content is defined in code 01.0000. |
| 01.0000 | Agriculture, General | 6 | 01 | A program that focuses on the general principles and practice of agricultural research and production and that may prepare individuals to apply this knowledge to the solution of practical agricultural problems. Includes instruction in basic animal, plant, and soil science; animal husbandry and plant cultivation; soil conservation; and agricultural operations such as farming, ranching, and agricultural business. |
| 01.XX | Agricultural/Animal/Plant/Veterinary Science and Related Fields (Consolidated 0100-0199) | 4 | 01 | Instructional programs that focus on agriculture, animal, plant, veterinary, and related sciences and that prepares individuals to apply specific knowledge, methods, and techniques to the management and performance of agricultural and veterinary operations. |
| 03 | Natural Resources and Conservation | 2 | 03 | Instructional programs that focus on the various natural resources and conservation fields and prepare individuals for related occupations. |

5.16. Grad Cohort

grad_cohort is a 4-digit number representing the first year of the graduation cohort. The number of years in the cohort is reported in the separate **Grad Cohort Years** variable.

If **grad_cohort**=2010 and **grad_cohort_years**=3, then the cell includes graduates from 2010, 2011, and 2012.

When tabulating across all cohorts, the value **0000** will be used for `grad_cohort`.

5.17. Grad Cohort Years

`grad_cohort_years` is the number of years in the cohort of reference (see [Grad Cohort](#)). It varies by [Degree Level](#). Bachelor's degrees (05) are reported in 3 year cohorts, all other degrees are reported in 5 year cohorts. The `grad_cohort_years` will take a value (3,5). As tabulations are not done across degree types, the appropriate value will be reported in `grad_cohort_years` when `grad_cohort`=0000.

5.18. Geography

5.18.1. Geographic Levels

([label_geo_level.csv](#))

Geography labels for data files are provided in separate files, by scope. Each file 'label_geography_SCOPE.csv' may contain one or more types of records as flagged by [geo_level](#). For convenience, a composite file containing all geocodes is available as [label_geography.csv](#). The 2024 vintage of [Census TIGER/Line geography](#) is used for all tabulations as of the R2025Q1 release.

Shapefiles are described in a [separate document](#).

| geo_level | label | description | source |
|-----------|--|---|---|
| N | National (50 States + DC) | Custom code using '00' to denote national scope | |
| D | Divisions | Identifies 1-digit multi-state Census Divisions | U.S. Census Bureau, Population Division (link) |
| S | States | Identifies 2-digit FIPS/ANSI codes | U.S. Census Bureau, Population Division; American National Standards Institute (ANSI) Codes for States, the District of Columbia, Puerto Rico, and the Insular Areas of the United State (link) |
| C | Counties | Identifies 5-digit FIPS/ANSI code for counties | U.S. Census Bureau, Population Division; FIPS Codes for Counties and County Equivalent Entities (link) |
| M | Metropolitan/Micropolitan (state part) | Identifies 7-digit code constructed from the 2-digit state FIPS code and the 5-digit CBSA code provided by the Census Bureau's Geography Division | U.S. Census Bureau, Population Division; Office of Management and Budget, July 2023 delineations (link) |

| geo_level | label | description | source |
|-----------|----------------------------|---|---|
| B | Metropolitan (complete) | Identifies 5-digit CBSA code for metropolitan areas provided by the Census Bureau's Geography Division. Balance of state including micropolitan areas are identified by custom codes as [ST]999 | U.S. Census Bureau, Population Division; Office of Management and Budget, July 2023 delineations (link) |
| W | Workforce Investment Areas | 2-digit state FIPS code and the 6-digit WIA identifier provided by LED State Partners | |

5.18.2. National and State-Level Values

([label_fipsnum.csv](#))

The file [label_fipsnum.csv](#) contains values and labels for all entities of [geo_level](#) 'N' or 'S', and is a summary of separately available files.

| geography | label | geo_level |
|-----------|---------------------------|-----------|
| 00 | National (50 States + DC) | N |
| 01 | Alabama | S |
| 02 | Alaska | S |
| 04 | Arizona | S |
| 05 | Arkansas | S |
| ... | | |

([label_geography_division.csv](#))

The file [label_geography_division.csv](#) contains values and labels for all entities of [geo_level](#) 'D'. For more information on which states comprise each division, see the map [here](#).

| geography | label | geo_level |
|-----------|-----------------------------|-----------|
| 1 | New England Division | D |
| 2 | Middle Atlantic Division | D |
| 3 | East North Central Division | D |
| 4 | West North Central Division | D |
| 5 | South Atlantic Division | D |

| geography | label | geo_level |
|------------------|-----------------------------|------------------|
| 6 | East South Central Division | D |
| 7 | West South Central Division | D |
| 8 | Mountain Division | D |
| 9 | Pacific Division | D |
| Z | Unclassified | D |

5.18.3. State Postal Codes

Some parts of the schema use (lower or upper-case) state postal codes.

([label_stusps.csv](#))

| geography | stusps | label |
|------------------|---------------|---------------------------|
| 00 | US | National (50 States + DC) |
| 01 | AL | Alabama |
| 02 | AK | Alaska |
| 04 | AZ | Arizona |
| 05 | AR | Arkansas |
| 06 | CA | California |
| 08 | CO | Colorado |
| 09 | CT | Connecticut |
| 10 | DE | Delaware |
| 11 | DC | District of Columbia |
| 12 | FL | Florida |
| 13 | GA | Georgia |
| 15 | HI | Hawaii |
| 16 | ID | Idaho |
| 17 | IL | Illinois |
| 18 | IN | Indiana |
| 19 | IA | Iowa |
| 20 | KS | Kansas |
| 21 | KY | Kentucky |
| 22 | LA | Louisiana |
| 23 | ME | Maine |

| geograph y | stusp s | label |
|-----------------------|--------------------|------------------------------|
| 24 | MD | Maryland |
| 25 | MA | Massachusetts |
| 26 | MI | Michigan |
| 27 | MN | Minnesota |
| 28 | MS | Mississippi |
| 29 | MO | Missouri |
| 30 | MT | Montana |
| 31 | NE | Nebraska |
| 32 | NV | Nevada |
| 33 | NH | New Hampshire |
| 34 | NJ | New Jersey |
| 35 | NM | New Mexico |
| 36 | NY | New York |
| 37 | NC | North Carolina |
| 38 | ND | North Dakota |
| 39 | OH | Ohio |
| 40 | OK | Oklahoma |
| 41 | OR | Oregon |
| 42 | PA | Pennsylvania |
| 44 | RI | Rhode Island |
| 45 | SC | South Carolina |
| 46 | SD | South Dakota |
| 47 | TN | Tennessee |
| 48 | TX | Texas |
| 49 | UT | Utah |
| 50 | VT | Vermont |
| 51 | VA | Virginia |
| 53 | WA | Washington |
| 54 | WV | West Virginia |
| 55 | WI | Wisconsin |
| 56 | WY | Wyoming |
| 72 | PR | Puerto Rico |
| 78 | VI | United States Virgin Islands |

5.18.4. Detailed State and Substate Level Values

Files of type 'label_geography_[ST].csv' will contain identifiers and labels for geographic areas entirely comprised within a given state '[ST]'. State-specific parts of cross-state CBSA, in records of type [geo_level](#) = M, are present on files of type 'label_geography_[ST].csv'. The file [label_geography_metro.csv](#) contains labels for records of type [geo_level](#) = B, for metropolitan areas only.

| Scope | Types | Format file |
|----------|---------|--|
| US | N | label_geography_us.csv |
| DIVISION | D | label_geography_division.csv |
| METRO | B | label_geography_metro.csv |
| AK | S C W M | label_geography_ak.csv |
| AL | S C W M | label_geography_al.csv |
| AR | S C W M | label_geography_ar.csv |
| AZ | S C W M | label_geography_az.csv |
| CA | S C W M | label_geography_ca.csv |
| CO | S C W M | label_geography_co.csv |
| CT | S C W M | label_geography_ct.csv |
| DC | S C W M | label_geography_dc.csv |
| DE | S C W M | label_geography_de.csv |
| FL | S C W M | label_geography_fl.csv |
| GA | S C W M | label_geography_ga.csv |
| HI | S C W M | label_geography_hi.csv |
| IA | S C W M | label_geography_ia.csv |
| ID | S C W M | label_geography_id.csv |
| IL | S C W M | label_geography_il.csv |
| IN | S C W M | label_geography_in.csv |
| KS | S C W M | label_geography_ks.csv |
| KY | S C W M | label_geography_ky.csv |
| LA | S C W M | label_geography_la.csv |
| MA | S C W M | label_geography_ma.csv |
| MD | S C W M | label_geography_md.csv |
| ME | S C W M | label_geography_me.csv |
| MI | S C W M | label_geography_mi.csv |
| MN | S C W M | label_geography_mn.csv |
| MO | S C W M | label_geography_mo.csv |

| Scope | Types | Format file |
|-------|---------|--|
| MS | S C W M | label_geography_ms.csv |
| MT | S C W M | label_geography_mt.csv |
| NC | S C W M | label_geography_nc.csv |
| ND | S C W M | label_geography_nd.csv |
| NE | S C W M | label_geography_ne.csv |
| NH | S C W M | label_geography_nh.csv |
| NJ | S C W M | label_geography_nj.csv |
| NM | S C W M | label_geography_nm.csv |
| NV | S C W M | label_geography_nv.csv |
| NY | S C W M | label_geography_ny.csv |
| OH | S C W M | label_geography_oh.csv |
| OK | S C W M | label_geography_ok.csv |
| OR | S C W M | label_geography_or.csv |
| PA | S C W M | label_geography_pa.csv |
| PR | S C W M | label_geography_pr.csv |
| RI | S C W M | label_geography_ri.csv |
| SC | S C W M | label_geography_sc.csv |
| SD | S C W M | label_geography_sd.csv |
| TN | S C W M | label_geography_tn.csv |
| TX | S C W M | label_geography_tx.csv |
| UT | S C W M | label_geography_ut.csv |
| VA | S C W M | label_geography_va.csv |
| VT | S C W M | label_geography_vt.csv |
| WA | S C W M | label_geography_wa.csv |
| WI | S C W M | label_geography_wi.csv |
| WV | S C W M | label_geography_wv.csv |
| WY | S C W M | label_geography_wy.csv |

5.19. Aggregation Level

5.19.1. J2J

([label_agg_level.csv](#))

Measures within the J2J and QWI data products are tabulated on many dimensions, including demographic characteristics, geography, industry, and other firm characteristics. For Origin-Destination (O-D) tables, characteristics of the origin and destination firm can be tabulated separately. Every tabulation level is assigned a unique aggregation index, represented by the `agg_level` variable. This index starts from 1, representing a national level grand total (all industries, workers, etc.), and progresses through different combinations of characteristics. There are gaps in the progression to leave space for aggregation levels that may be included in future data releases.

The following variables are included in the [label_agg_level.csv](#) file:

| Variable | Description |
|-----------------------------|---|
| <code>agg_level</code> | index representing level of aggregation reported on a given record |
| <code>worker_char</code> | demographic (worker) characteristics reported on record |
| <code>firm_char</code> | firm characteristics reported on record. These will be the characteristics of the destination firm in O-D tabulations |
| <code>firm_orig_char</code> | characteristics of origin firm reported on record (O-D tabulations only) |
| <code>j2j</code> | Flag: Aggregation level available on J2J counts tables |
| <code>j2jr</code> | Flag: Aggregation level available on J2J rates tables |
| <code>j2jod</code> | Flag: Aggregation level available on J2J O-D tables |
| <code>qwi</code> | Flag: Aggregation level available on QWI |

The characteristics available on an aggregation level are repeated using a series of flags following the standard schema:

- [cip_level](#) - degree field reporting level of table
- [inst_level](#) - institution reporting level of table
- [geo_level](#) - geographic level of table
- [ind_level](#) - industry level of table
- `by_` variables - flags indicating other dimensions reported, including ownership, demographics, firm age and size.

A shortened representation of the file is provided below, the complete file is available in the link above.

| agg_level | worker_char | firm_char | firm_orig_char | j2j | j2j | j2jo | qwi | geo_level |
|-----------|------------------|--------------|-----------------------|-----|-----|------|-----|-----------|
| 1 | | | | | r | d | | l |
| 1 | | | | 1 | 1 | 1 | 0 | N |
| 2 | Sex | | | 1 | 1 | 1 | 0 | N |
| 3 | Age | | | 1 | 1 | 1 | 0 | N |
| 4 | Sex * Age | | | 1 | 1 | 1 | 0 | N |
| 5 | Race | | | 1 | 1 | 1 | 0 | N |
| 9 | Ethnicity | | | 1 | 1 | 1 | 0 | N |
| 13 | Race * Ethnicity | | | 1 | 1 | 1 | 0 | N |
| ... | | | | | | | | |
| 129 | | Firm Size | | 1 | 1 | 1 | 0 | N |
| 257 | | NAICS Sector | | 1 | 1 | 1 | 0 | N |
| 258 | Sex | NAICS Sector | | 1 | 1 | 1 | 0 | N |
| ... | | | | | | | | |
| 1029 | Race | State | | 1 | 1 | 1 | 0 | S |
| 1033 | Ethnicity | State | | 1 | 1 | 1 | 0 | S |
| 1037 | Race * Ethnicity | State | | 1 | 1 | 1 | 0 | S |
| ... | | | | | | | | |
| 49153 | | | Origin [NAICS Sector] | 0 | 0 | 1 | 0 | N |
| 49154 | Sex | | Origin [NAICS Sector] | 0 | 0 | 1 | 0 | N |
| 49155 | Age | | Origin [NAICS Sector] | 0 | 0 | 1 | 0 | N |
| ... | | | | | | | | |

5.19.2. PSEO

([label_agg_level_pseo.csv](#))

Measures within the PSEO data product can be tabulated by characteristics of the graduate (e.g., institution attended, instructional program, degree level, etc.) and by characteristics of employment (state, industry). All measures may not be available on all levels of aggregation - for example, earnings variables may not be available when tabulating by place and industry of work, though counts are. Every tabulation level is assigned a unique aggregation index, represented by the `agg_level_pseo` variable. This index starts from 1, representing a national level grand total (all institutions, graduates, industries, etc.), and progresses through different combinations of characteristics. There are gaps in the progression to leave space for aggregation levels that may be included in future data releases. Aggregation levels that are available in the PSEO release will be flagged.

The following variables are included in the [label_agg_level_pseo.csv](#) file:

| Variable | Description |
|----------------|--|
| agg_level_pseo | index representing level of aggregation reported on a given record |
| grad_char | Characteristics of graduate and program |
| firm_char | Characteristics of place of employment |
| pseoe | Flag: aggregation level available on PSEO Earnings |
| pseof | Flag: aggregation level available on PSEO Flows |

The characteristics available on an aggregation level are repeated using a series of flags following the standard schema:

- [inst_levels](#) - institution level of table
- [geo_level](#) - geographic level of table
- [ind_level](#) - industry level of table
- by_ variables - flags indicating other dimensions reported, including ownership, demographics, firm age and size.

| agg_level_pseo | grad_char | firm_char | cip_level | inst_level | geo_level | ind_level | by_grad_cohort | by_degree_level | pseoe | pseof |
|----------------|---|--------------|-----------|------------|-----------|-----------|----------------|-----------------|-------|-------|
| 26 | Degree Level * State of Institution | | A | S | N | A | 0 | 1 | 1 | 1 |
| 28 | Degree Level * CIP 2-digit * State of Institution | | 2 | S | N | A | 0 | 1 | 1 | 1 |
| ... | | | | | | | | | | |
| 96 | Degree Level * CIP 4-digit * Start Year for Graduation Cohort * Institution ID | NAICS Sector | 4 | I | N | S | 1 | 1 | 0 | 0 |

5.19.2.1. Restricted 4-Digit CIP Tabulations in Earnings Data (PSEOE)

Earnings estimates and counts are provided only at the 2-digit CIP level for Masters and Doctor Research programs (degree levels 07 and 17). Records are included for 4-digit programs observed,

but all measures are suppressed.

5.19.3. QWI

Aggregation level to be added to QWI in a future release

6. Status Flags

([label_flags.csv](#))

Most indicators in the LEHD data products have associated status flags. Each status flag in the tables above contains one of the following valid values. The values and their interpretation are listed in the tables below. Unless otherwise specified in this section, a status flag will take the values described in 7.1 Standard Status Flags.

6.1. Standard Status Flags

Important

Note: Currently, the J2J and PSEO tables only contain status flags '-1', '1', '5'. Status flags with values 10 or above only appear in online applications, not in CSV files.

| flag | label |
|------|--|
| -2 | no data available in this category for this quarter |
| -1 | data not available to compute this estimate |
| 1 | OK |
| 5 | Value suppressed because it does not meet US Census Bureau publication standards. |
| 6 | Value calculated from other released measures - no significant distortion |
| 7 | Value calculated from other released measures - some of which have significantly distorted data |
| 9 | Data significantly distorted - fuzzed value released |
| 10 | Aggregate of cells - no significant distortion |
| 11 | Aggregate of cells not released because component cells do not meet U.S. Census Bureau publication standards |
| 12 | Aggregate of cells - some of which have significantly distorted data |

6.2. IPEDS Count Status Flag

([label_flags_ipeds_count.csv](#))

Graduate counts associated with PSEO earnings tabulations are provided using public use data from the [Integrated Postsecondary Education Data System \(IPEDS\)](#). Counts are linked to graduation cohorts in the PSEO data and included in the PSEO tables. In a small number of cases, misalignment in programs (CIPCODE) is observed between the IPEDS and PSEO counts. In these cases, the IPEDS counts are adjusted to be consistent with those on PSEO, and the count is flagged accordingly. For higher level aggregations (e.g., all cohorts, all CIPCODE), IPEDS totals may sum over

cohorts or programs for which graduate counts were not available. The counts are released but flagged to indicate missing data. IPEDS counts may be suppressed and flagged as not available in some cases when PSEO earnings data do not meet Census Bureau publication standards.

| flag | label |
|-------------|--|
| 1 | IPEDS counts as reported |
| 2 | IPEDS counts edited for consistency with PSEO categories |
| 3 | IPEDS counts not available |
| 4 | IPEDS counts partially missing |

7. Metadata

([variables_version.csv](#))

7.1. Version Metadata for QWI, J2J, and PSEO Files (version.txt)

Each data release is accompanied by one or more files with metadata on geographic and temporal coverage, in a compact notation. These files follow the following naming convention:

```
version_[type].txt
```

where each component is described in more detail in [lehd_csv_naming.pdf](#).

The contents contain the following elements:

| Component | Source | Description |
|-----------|-------------------------------|---|
| product | [type] | Type as described in naming convention |
| fas | [fas] | (optional - concatenated with product) used for QWI to distinguish separate tabulations from the legal [fas] values as described in naming convention |
| geo | stusps or METRO | Covered geography (uppercase state postal code including entire nation or the word METRO) |
| geonum | geography | Numeric geography code |
| start | yyyy:q (QWI, J2J) yyyy (PSEO) | Start year and quarter |
| end | yyyy:q (QWI, J2J) yyyy (PSEO) | End year and quarter |
| schema | Vx.y.z | Version of the schema |
| release | RyyyyQq | Release quarter (identifies when the data was created) |
| internal | various | Internal identifier used for provenance tracking |

For instance, metadata for a QWI release of Delaware (example [here](#)) has the following content:

```
QWI_F DE 10 1998:3-2022:4 V4.10.0 R2023Q3 qwipu_de_20230717_0730
QWI_FA DE 10 1998:3-2022:3 V4.10.0 R2023Q3 qwipu_de_20230717_0730
QWI_FS DE 10 1998:3-2022:3 V4.10.0 R2023Q3 qwipu_de_20230717_0730
```

Similarly, metadata for a J2J release of Delaware (example [here](#)) has the following content:

```
J2J DE 10 2000:2-2022:3 V4.10.0 R2023Q3 j2jpu_de_20230911_1751
```

Metadata for a J2J release of metropolitan areas contain multiple entries (example [here](#))

```
J2J METRO 01999 2001:2-2022:3 V4.10.0 R2023Q3 j2jpu_us_20230913_0711
J2J METRO 02999 2001:2-2016:1 V4.10.0 R2023Q3 j2jpu_us_20230913_0711
J2J METRO 04999 2004:2-2022:3 V4.10.0 R2023Q3 j2jpu_us_20230913_0711
...
```

The PSEO metadata will contain separate lines for the PSEOE and PSEOF tables. The year range for PSEO tables is based on the [Grad Cohort](#), the start year of the graduation cohort. An example for R2019Q1 PSEO release for Colorado institutions (example [here](#)) has the following content:

```
PSEOE CO 08 2001-2015 V4.5.0 2019Q1 pseopu_co_20190617_0839
PSEOF CO 08 2001-2015 V4.5.0 2019Q1 pseopu_co_20190617_0839
```

7.2. Additional Metadata for J2JOD Files (avail.csv)

([variables_avail.csv](#))

Because the origin-destination (J2JOD) data link two regions, we provide an auxiliary file with the time range that cells containing data for each geographic pairing may appear in a data release.

| variable | type | label |
|----------------|---------|---|
| geo_level | Char(1) | Geographic level of destination region |
| geography | Char(8) | Geography code of destination region |
| geo_level_orig | Char(1) | Geographic level of origin region |
| geography_orig | Char(8) | Geography code of origin region |
| start_year | Num | First year regional pair may be observed |
| start_quarter | Num | First quarter regional pair may be observed |
| end_year | Num | Last year regional pair may be observed |
| end_quarter | Num | Last quarter regional pair may be observed |

The reference region will always be either the origin or the destination. National tabulations contain records where both origin and destination are [geo_level=N](#); state tabulations contain records where [geo_level](#) in (N,S); metro tabulations contain records where [geo_level](#) in (N,S,B). Data

may be suppressed for certain combinations of regions and quarters because the estimates do not meet Census Bureau publication standards.

A consolidated J2JOD availability table across national, state, and metro aggregations can be found in the [j2jod_all_avail](#) file.

7.3. Metadata on Indicator Availability

([variables_lags.csv](#))

Each [Indicator](#) potentially requires leads and/or lags of data to be computed, and thus may not be available for certain time periods. Only two QWI will be available for all quarters of the time span described by start and end in the [version.txt](#) files: EmpTotal and Payroll. The date range for QWI, QWIR, J2J, and J2JR can be found in [version.txt](#); the date range for J2JOD can be found in [avail.csv](#).

For each indicator, the following files contain the quarters of data required to be available relative to the overall date range described in the metadata for the release:

- [lags_qwi.csv](#)
- [lags_j2j.csv](#)

The files are structured as follows:

| variable | type | label |
|------------------------------|------|--|
| Indicator Variable | Num | Name of the Indicator |
| Quarters_Required_Prior | Num | Number of quarters of data required to compute indicator relative to start quarter |
| Quarters_Required_Subsequent | Num | Number of quarters of data required to compute indicator relative to end quarter |

7.4. Additional Metadata for PSEO Files

Several additional files within each state release are included to provide information on the institutions within the scope of PSEO. The ALL directory consolidates the individual state files.

- Online Institutions

Online institutions without a natural home state are assigned **00** for the *inst_state* variable and are placed in the **us** directory in the public use distribution. National-level aggregations are not included in the PSEO data product at this time.

7.4.1. PSEO Data Partners and Coverage (pseo_[ST]_partners.txt)

This file contains information on PSEO coverage of graduates, as well as the partner organization(s) providing data. This is presented on several lines of a text file, as follows:

- State numeric FIPS code and state name
- Share of statewide graduates covered by PSEO
- Name(s) of data provider(s) (multiple lines, as required)

The share is derived from [Integrated Postsecondary Education Data System \(IPEDS\)](#) data, using program graduates from 2015 for degree levels within the scope of PSEO. It calculates the number of graduates from institutions that are available to PSEO as a fraction of graduates from all institutions within IPEDS for the reference state.

A sample file follows:

```
08 Colorado
72% of statewide graduates covered (2015 estimate)
Colorado Department of Higher Education
```

7.4.2. Institutions Available Within PSEO (pseo_[ST]_institutions.csv)

([variables_pseo_institutions.csv](#))

This file provides the list of institutions that are included in the PSEO release. This file is an extract from [label_institution.csv](#).

The files are structured as follows:

| variable | type | label |
|-------------------|----------|---------------------------------------|
| institution | Char(8) | Identifier for Institution (OPEID) |
| label | Char(70) | Name of Institution |
| institution_state | Char(2) | Institution State (Postal Code) |
| statefips | Char(2) | Institution State (Numeric FIPS Code) |
