## State Data Release Begins

The Census Bureau has begun providing summaries of 2010 Census population totals, as well as 2010 Census data on race, Hispanic origin and voting age for multiple geographies within each state. The Census Bureau will deliver the data state-by-state on a rolling basis through March.

## NOTE: THE FORM CAN NOT BE FILLED OUT ONLINE.

Roll over any question below for a more in-depth look at the form and the information we ask of you.

**2. Were there any additional people staying here April 1, 2010 that you did not include in Question 1? Mark  all that apply.**

- Children, such as newborn babies or foster children
- Relatives, such as adult children, cousins, or in-laws
- Nonrelatives, such as roommates or live-in baby sitters
- People staying here temporarily
- No additional people

We ask this question to help identify people who may have been excluded in the count provided in Question 1. We use the information to ensure response accuracy and completeness and to contact respondents whose forms have incomplete or missing information.

The screenshot shows the website for Lower Merion Township, Montgomery County, Pennsylvania. The page is titled "2010 Census -- 'Take 10 Challenge'". A central graphic displays the participation rate for Lower Merion township (Montgomery County), PA, as 79%. The graphic also indicates that the data was displayed as of April 27, 2010. The page includes a navigation menu with links to Home, About Lower Merion, Departments & Services, I Want To..., Residents, and Businesses. A sidebar on the left lists various township services and documents. The main content area provides information about the census, including a "Print" button and a "back their census forms" link. The page footer shows the last updated date as 9/16/2010 3:29:52 PM.

2010 Census -- "Take 10 Challenge"

Print

The Census is underway and all of America is being asked to "Take Ten Minutes" to complete and mail back the 2010 Census forms. Take the "Take 10 Challenge" and beat the Census 2000 mail-back rate!

Have you looked up Lower Merion's or your area's 2010 Census Mail Participation Rate? On the Census Bureau's **Take 10 Challenge Map** you can track how well our community is participating in the census by seeing what percentage of households have mailed

back their census forms.

The nation just surpassed the 50% mark on March 31, 2010 -- half the nation has returned their census form. And Lower Merion is above this national rate! The Census Bureau is challenging all communities to achieve a higher rate in 2010 than they did in 2000. Nationally, the goal is to "beat" the 2000 Census rate of 72%. Each community's 2000 rate is also on the Take 10 Map.

Take 10 minutes to fill out the 2010 Census form and mail it back TODAY. If 100% of households mailed back their forms, taxpayers would save \$1.5 BILLION dollars. Let's all do our part and mail back our forms!

### Player News (last updated: January 6, 2011)

**News:** Rondo recorded 22 assists, 12 points, and 10 rebounds Wednesday for his 11th career triple-double, adding six steals in the victory over San Antonio.

**Spin:** It wouldn't be surprising to learn, at this point, that Rondo also taught himself the entire Portuguese language during halftime. With regard to fantasy value, his free-throw shooting is currently what's keeping him outside the top 12.

# Goals for Open Data and Mash-Ups

- Data should be open and transparent
- Maintain quality standards and data integrity
- Serve average consumer and power data user
- Collaboration with the public in creating new ways to use data
- Added value by merging data sets to create new content

# Rules for the Road

- All data and estimates made available in machine readable formats
- All tables of published estimates (i.e. aggregate data) should include meta-data tags for data linkage that specify data sources, data quality, data subject matter
- Tags must comply with Census Bureau standards for data-tagging
- Any micro-data published with meta-data tags for data linkage must go through additional review to assure privacy of respondents

Census Bureau will provide seal of approval to those applications and data visualizations that have passed muster before a Census Bureau panel empowered to enforce our data quality and reliability standards.

# Summary

## Census Bureau Data Visualization Goals

- All Census Bureau data products are a public good
- Need to give the taxpayers a solid return on their investment
- Census Bureau should lead the way in transparency and open government initiatives through data visualization
