

2024 LOCAL EMPLOYMENT DYNAMICS PARTNERSHIP VIRTUAL WORKSHOP

May 14 - 16, 2024

SAVE THE DATE

Join us for our 2024 Local Employment Dynamics (LED) Partnership Virtual Workshop, featuring Julia Pollak, Chief Economist at ZipRecruiter, as the keynote speaker. This year's theme is, "Multidimensional Perspectives of the Labor Market." We will be highlighting the work of our state Labor Market Information (LMI) partners, state and local data users, and U.S. Census Bureau researchers through plenary sessions. The workshop will be held from noon – 5pm Eastern on May 14 – 15, with interactive training sessions from noon – 5pm Eastern on Thursday, May 16. We invite you to submit in advance any questions or scenarios you would like addressed during the training sessions.

The LED Partnership is a collaboration between state data agencies and the U.S. Census Bureau to leverage existing data in the development of new sources of economic and demographic information for policy makers and data users. The workshop provides professional development and networking for Labor Market Information directors, data analysts and data providers at state and federal agencies, nonprofit organizations, businesses, universities, and other data users.

Further details and an agenda, when available, will be posted on the LEHD website. Information on previous workshops can also be found at <https://lehd.ces.census.gov/learning/>.

If you have any questions about the workshop, please email CES.Local.Employment.Dynamics@census.gov.
